# Ident-PHF newsletter

The Newspaper to inform the « Non Production Materials Identification » network

## Editorial

By Gérard CHAUMOND (Project Leader Non Production Materials Identification) - RENAULT

This special number wants to be shorter, lighter than in the custom, but also more concrete and more factual.

Indeed, some concrete actions are well better than of long speeches.

It is the claim which has this special number except series, to show you that since the previous number of the Newspaper "Ident-PHF" diffused at this beginning of year 2008, certain number of actions took place. News were rich in events and will still be it in the months to come..., it is what we suggest you discovering in some lines

G. CHAUMOND

## PFI CHARTER : it's now signed !...

### Charte d'adhésion au Projet « Place communautaire de données techniques de catalogues »

#### A. Des convictions communes

Les parties prenantes (donneurs d'ordres, fabri

partagent des convictions communes concerna

- l'importance et la valeur des objectifs
- les effets positifs, directs ou indirects, mis en œuvre des concepts actuels,
- l'engagement que ceci implique pour:

Elles constituent de ce fait une Communauté, d

It was indeed signed between Arc International, AFIM, PSA Peugeot Citroën and Renault, in the 1st quarter 2008: it means the commitment of these 4 actors to push further the initiative PFI and to finalize the current prototype phase.

## NPMI -Odette Recommendation: it's now official...

### Non-Production Material Identification

V1.0

Resuming the concepts of the initiative PFI (EAN, eClass, PLib), this recommendation ODETTE-NPMI (Non Production Materials Identification), is henceforth proposed, through Odette International, for application towards the European car and automotive parts manufacturers
